

Introducing the
CoolSmooth™ Applicator

SAY GOODBYE TO STUBBORN OUTER THIGH FAT

Introducing the CoolSmooth™ applicator, an exciting addition to the CoolSculpting® product line. The CoolSmooth applicator is the first and only non-surgical solution clinically proven and designed for fat reduction of the outer thigh.

Introducing the CoolSmooth™ Applicator

Non-Vacuum Based Cooling

» Easily treat non-pinchable fat bulges

Conformable Design

» Adjusts to fit each individual patient

Proven Clinical Results

» 86% of patients reported visible reduction in stubborn outer thigh fat

In-Line CoolCard Insertion

» Patient-friendly design

CONSISTENT AND EFFECTIVE RESULTS

In a recent CoolSmooth™ clinical study where patients received unilateral outer thigh treatments:

- » 86% of patients noticed visible fat reduction after just one treatment
- » 86% of patients were satisfied with their results
- » 89% would recommend the CoolSculpting® procedure to a friend

BEFORE

8 WEEKS AFTER
COOLSCULPTING® TREATMENT
(Single side treatment, no weight change)
Procedure by Grant Stevens, MD, FACS

A Comprehensive Applicator Portfolio – The Line-Up Keeps Getting Better!

CoolCurve+™

- Applicator of choice for flanks
- Curved cup design allows for better placement and fit on curved or narrow parts of the body

CoolCore™

- Best matches with the contour of the abdomen
- Most commonly used applicator used for this area

CoolMax™

- Pulls in 2.5x more volume than other vacuum applicators
- Suggested for large volume reduction or de-bulking

CoolFit™

- Ideal for longer, vertical areas of fat (i.e. abdomen and flanks)
- Also suggested for the arms and inner thighs (OUS)

CoolSmooth™

- Ideal for non-pinchable areas of fat (i.e. abdomen and flanks)
- Also suggested for outer thighs (OUS)
